

LARGE CONGREGATIONS TAKE PART IN SERVICES

Deepening Interest Being Shown in Simultaneous Baptist Campaign.

DR. ROPER AT FIRST CHURCH

Special Meetings to Be Held To-Day in Shops and at Colleges—Well-Known Singers Are to Take Part in Services.

The good weather of the past few days has resulted in filling all the Baptist churches with large congregations for the evangelistic campaign now being conducted here. A deepening interest is being shown, both among the laity and among those of other faiths.

The meeting at Pine Street Church is notable for the number of new members who have already been added, more than seventy having joined up with the people of that organization for service. Evangelist F. D. King, of Charlotte, is ably assisting Rev. J. B. Hutson, D. D., in the meeting.

Among the other churches with large gatherings are: Randolph Street, with Evangelist Kendrick, and the First Church, having more than fifty accessions. Venable Street and Fulton Church, with Evangelist Wright and Wolfe, with Evangelist and seventy new members have been received.

"Eternal Life, or Life in the Kingdom," was the subject of the lecture delivered to the class in personal work by Evangelist E. V. Lamb, at the union meeting of all the churches yesterday. He said that the Christian has eternal life in spite of enemies. He also has victory over death, is free from sin, inheritance, and from judgment, and is as secure as Christ and God are secure. With this consciousness and the promise of God he should have a life that is entrusted with a message of infinite importance to the lost soul. "The Bible doesn't teach the final perseverance of the saints," declared the lecturer, "but it does teach the eternal perseverance of God and the final preservation of the saints."

MANY CHURCHES REPORT ACCESSIONS

At the 10 o'clock period the pastors of the different churches co-operating in the campaign, reported enough additional accessions to make the total number nearly 550. The male quartet sang a beautiful selection, "He Will Keep," which was composed by M. J. Habitt, one of the singers.

The musical program is a feature of the central service each morning. At the conclusion of this meeting to-day the campaign quartet will accompany Rev. Watson to the service at Richmond College.

One of the most masterful sermons preached at the First Church since the inauguration of the local campaign was that of Rev. Lewis M. Roper, pastor of the First Baptist Church, Petersburg, at the inspirational hour yesterday morning. Speaking from the text, "Present Yourselves Unto God," and having as his theme, "Yield Yourselves," he appealed to the Christian people for an entire surrender of their whole personality, native endowments, acquired traits and accumulations of energy to God's control. He stated that God does not call for the Christian's time, money or work primarily, but demands self—mind and body. The latter should be presented as a living sacrifice, kept clean, vigorous and devoted and trained to the highest efficiency, with every member under perfect control. This he claimed to be one of the most supreme and gigantic achievements of the human race. "The Christian," he declared, "will be dominated by God's will and the body surrendered wholly to Him, to be fashioned according to His desires."

DABNEY DESCRIBES RICHMOND-MADE ENGINE

Tells Albany Rotarians of Wonderful Machines Built in South.

ARGUS REPORTS HIS SPEECH

New Yorkers Greatly Impressed by Glowing Account of Great Richmond Product, Which Carries This City's Trade-Mark Around World.

Mouths were gaped in wonderment and the attention of everyone was directed toward Richmond by the story of the largest locomotive in the world as told by W. T. Danbey, business manager of the Richmond Chamber of Commerce, who, not long ago, while in Albany, New York, was one of the speakers at a luncheon given by the Albany Rotary Club. At the time members of the Richmond Chamber of Commerce, who were delegates to the Atlantic Deep Waterways Association were visiting Albany, and accompanying them were delegations from all parts of the country.

At the luncheon given in honor of the visitors by the Albany Rotary Club the visitors were introduced and each was invited to say a few words relative to his home city. Some of the delegates told the story of their city's greatness in manufacturing enterprises, "back home," but reports indicate that the Richmond booster "put over" the feature story of the occasion when he told the story of the greatest locomotive in the world, the "Richmond-made engine." Under the headline, "Some Engine," the Albany Argus quotes Mr. Danbey as telling the story of the "Richmond-made engine," which carries this city's trade-mark around the world.

DABNEY DESCRIBES RICHMOND-MADE ENGINE

"The largest locomotive in the world is in Richmond, Va. It has five acres of land behind it, and it is the largest in the world. It takes a man a day and a half to walk through one of its cylinders. It has an elevator running up to the head end, and it takes ten barrels of oil to fill it. It takes two men forty-five minutes to light one signal light, and it took fifteen carpenters nine months to build her pilot. The engine is a steam shovel to give her coal. The tender holds ninety-seven carloads of coal. Every time she exhausts it rains for thirty minutes. The engine uses a searchlight to look out for steamboats, and goes blind after running for six months. It takes two astronomers with powerful telescopes to see her going. The pony wheels are the size of motor turbines in this country, and a section of the Pacific cable is used for the bell cord. It takes forty-eight hours for one spark to fall. When the whistle blows it causes an epidemic of deafness in Norfolk 100 miles away. Monster trees have been broken from the wind of this train. She runs from Richmond to Rockfish, a distance of eighty-four miles, in fifty-five minutes, making her tunnels as she goes. She hauls 1,743 cars, and the roundhouse force hold their annual picnic in her firebox every summer. When they wash her boiler it is necessary to drain the James River. She carries 1,800 pounds of steam and 940 pounds of air. The throttle is pulled by a stationary engine in the cab. The lubricator holds fourteen barrels of oil. When she leaves the rails there is an earthquake in Petersburg four days later. The train goes so fast that when it stops it is still going ten miles an hour."

Charged With Stealing Coal

Charles Harris, colored, last night arrested by a Seaboard Air Line watchman, charged with stealing coal from the Seaboard yards. The negro was locked in the First Precinct Station pending his arraignment in Police Court this morning.

Concealed Weapon.

Charged with carrying a concealed weapon, Joe Robinson was yesterday morning fined \$20 and costs at a hearing before Magistrate R. A. Smith, of Henrico County. Robinson paid the fine and was released.

ALBERTSON BAGBY IS SENT TO REFORMATORY

Negro Boy Shot and Killed Companion With Gun He Did Not Know Was Loaded.

At a hearing yesterday morning before Magistrate H. S. Sunday, of Henrico County, Albertson Bagby, the fifteen-year-old negro youth, who on last Saturday shot and killed Samuel Vaughn, a sixteen-year-old negro boy, was ordered sent to the reformatory in Hanover County for negroes, there to remain until he reaches the age of twenty-one.

The shooting occurred at the home of the dead youth, on the Walliamsburg Road, near Seven Pines. Bagby contends that he did not know the gun was loaded. He was playing with the weapon when the accident occurred. Vaughn warned him to look and said the gun was loaded. Bagby raised the weapon to his shoulder and pulled the trigger. The top of Vaughn's head was blown off, and he fell back, head first, into a bush. Foolhardiness on the part of Bagby in handling the gun caused Vaughn's death, the coroner's jury decided at the inquest on Monday.

Association for Preservation of Virginia Antiquities Holds General Meeting.

Keeping pace with progress in the new things, the General Association for the Preservation of Virginia Antiquities is constantly tabulating interesting events which have made the history of the Old Dominion, and a well-attended meeting of the organization was held yesterday morning in the Jefferson Hotel. The speaker stated that the number of conventions held here this fall had brought many visitors to historic places throughout the State.

Mrs. J. B. Lightfoot reported that the Association had been invited to the Jamestown, for in addition to the Pocahontas tablet unveiling, there were two other excursions to that place.

Mrs. Christopher Tompkins, in her report as chairman of the John Marshall House, which she had been asked to take charge of, stated that she had been acting as a trustee of the John Marshall House, the latter had been sent out of town in the hope that a change of scene might prove beneficial.

FAMOUS ALIENATION CASE TO BE ARGUED HERE

United States Circuit Court of Appeals Re-convenes To-Morrow Morning.

MANY OPINIONS EXPECTED

Court Will Review Case of Mrs. Katherine E. Oseenton Against Mrs. Margaret H. Williamson, in Which Verdict for \$35,000 Was Returned.

The first case set for argument when the United States Circuit Court of Appeals begins its fall term here to-morrow morning is the famous alienation action brought by Mrs. Katherine E. Oseenton against Mrs. Margaret H. Williamson, on appeal from the United States District Court at Charleston, W. Va., in which a verdict for \$35,000 was returned in favor of the plaintiff.

Argument at a previous session was halted in order that the United States Supreme Court of Appeals could pass upon the question raised as to whether Mrs. Oseenton was a legal resident of Virginia at the time the suit was entered.

A brief history of the case shows that Mrs. Oseenton obtained a divorce in Fayette County, W. Va., from C. M. Oseenton, a former State Senator, after West Virginia and at one time chief of a Treasury Department division in Washington, Mrs. Williamson, a young widow of Glen Ferris, W. Va., was named as the defendant. After this Mrs. Oseenton moved to Virginia, and on January 21, 1912, brought suit against Mrs. Williamson, at Charleston, for the alienation of her husband's affections.

The United States Circuit Court of Appeals was scheduled to begin its fall term yesterday, but because it was election day, the opening of the court was postponed until to-morrow.

Joseph, City Inspector of Weights and Measures, made the report, and White will probably be arraigned before Justice Griggs in Police Court within the next few days.

H. Dreyer, of Petersburg, and James E. Cannon, of Richmond.

Mr. Hartley died in Petersburg Monday from injuries received when he was struck by a train near that city. The funeral will take place to-day in Sussex County.

The case against Mrs. Jennings was continued from yesterday by Justice Griggs, and the woman was released on \$300 bail.

GOVERNOR STUART WILL ATTEND CONFERENCE

Expects to Leave for Madison, Wis., on Next Saturday Night.

SUBJECTS OF IMPORTANCE

Uniformity of Legislation to Be Discussed at Seventh Annual Session of Conference of Governors—Wilson Expects to Attend.

Governor Stuart will leave for Madison, Wis., Saturday afternoon or Sunday morning to attend the opening session of the Conference of Governors.

The governors are scheduled to assemble next Tuesday. These conferences are held annually. The principal objects of the conference are the promotion of greater uniformity in State legislation, greater co-operation between State and Federal governments and greater efficiency in State legislation.

There are six subjects on the program this year for presentation and discussion. Two have to do with the uniformity of laws, two with the functions of the governor and State administration and two are of a more general nature. The subjects and the governors who will present them are as follows:

"Report of Committee on Rural Credit," Governor Emmett O'Neal, of Alabama, chairman; "State Control of Natural Resources," Governor William Spry, of Utah; "Uniformity of Laws Relating to the Control of Foreign Corporations," Governor C. R. Miller, of Delaware; "Extradition," Governor S. V. Stuart, of Montana; "Admission of Foreign Corporations," Governor Frank M. Byrne, of South Dakota; "Uniformity of Safety and Sanitation Laws For Places of Employment," including "Admission of Foreign Machinery," Governor Edward F. Dunne, of Illinois.

PRESIDENT WILSON EXPECTS TO ATTEND

President Wilson has assured the conference on arrangements for the convention, that if affairs of State permit, he will attend the meetings. He was an active member of the conference while governor of New Jersey.

The Governors' Conference is a unique institution in American political life. It exercises no legislative powers, nor can the organization lay down an administrative rule that has the force of law. Its influence is in the scope of influence and persuasion only.

It is recalled by Secretary M. C. Riley, of the Conference, in the printed invitations sent out from Madison, that "Governor Woodrow Wilson, the President, addressing the convention at Frankfort, Ky., in 1910, said: 'We are setting up outside the sphere of the Federal Congress a new instrument of political life, the Governors' Conference, which will be a permanent body, not of legislation, but of opinion, exercising the authority of influence, not of law.'"

The meetings in Madison will constitute the seventh annual session. Previous conferences were held in Washington, D. C., Frankfort and Louisville, Ky., Springfield, N. J., Richmond, Va., and Colorado Springs, Col.

SUFFERED AWFULLY NOW QUITE WELL

A Lady's Suffering Was So Intense, That At Times, She Was Unable To Straighten Her Body

Walnut, N. C.—"About 12 years ago," says Mrs. S. W. McClure, of Walnut, "I began to fall in health, getting worse all the time. I wasn't able to do my work, suffering awfully at times with pains in sides, especially the right side, and none of the time I was well."

Sometimes I could not straighten up my body for the intense suffering. I suffered more or less all the time, and was irregular.

As Cardui had helped others, I started trying it. I bought six bottles, and after using two or three bottles, I commenced improving, getting better all the time, until I was entirely well.

I became strong and healthy, gained flesh, weighing 120, being just a shadow when I commenced taking Cardui. My work is a pleasure, and I feel like doing my work since, for the cure was permanent, and I have been well and strong ever since.

Cardui is a fine medicine for suffering women, and I recommend it to all my friends who have womanly trouble."

Thousands of women have written to tell of the help Cardui has been to them. Cardui is a mild female tonic acting especially on the womanly organs. It has shown itself
